

Miscellaneous Meta Tags

Many meta tags have come and have disappeared in the previous years. This is why we also have a list with meta tags and html tags that are of lesser importance. The meaning of these meta tags is quite obvious.

```
<meta name="identifier-URL" content="http://www.your-domain-name.com/">

An acronym is a abbreviation pronounced as a word. Sometimes it is required that every letter means a separate word, like an initial word. An abbreviation is a word like IBM, USA or YMCA where you have to pronounce all the letters separately. In the source of your website the following tag can be found to clarify abbreviations for the spiders of search engines:

```
<acronym title="Search Engine Optimization">SEO</acronym>
```

```
<abbr title="United States of America">USA</abbr>
```

```
<abbr title="Bank of America">BOA</abbr>
```
